

## Specify the Business Problem

Date	20 october2023
Team ID	NM2023TMID02112
Project Name	Food Tracking System
Maximum Marks	4 Marks

1. Industry: What industry does your business operate in?
2. Context: What specific issue or challenge is impacting your business operations?
3. Scope: Is the problem related to internal processes, customer satisfaction, market competition, financial management, or something else?
4. Impact: How is the problem affecting your business performance, revenue, customer retention, or overall efficiency?
5. Goals: What are your desired outcomes or goals once the problem is addressed?
6. Timeline: Is there a specific timeframe within which you need to resolve the issue?
7. Resources: What resources, such as budget, personnel, or technology, are available to address this problem?

Providing these details will enable me to give you a more accurate and tailored response to your business problem.
